PROFESSIONAL SUMMARY

Full-Stack Developer and BCA graduate with practical experience in designing and deploying responsive web applications using React, Next.js, Python, and Django. Proven ability in relational database modeling, RESTful architectures, user authentication, and automated email workflows. Strong foundation in clean code principles, version control, and problem-solving, actively seeking an entry-level software engineering role.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, SQL, HTML5, CSS3

Frameworks & Libraries: React, Next.js, Django, Django ORM

Databases: SQLite, Relational Database Design

Tools & Platforms: Git, GitHub, Vercel, VS Code, Django Admin, Jupyter Notebook

Core Competencies: Full-Stack Development, Authentication & Session Management, REST APIs, Object-Oriented Programming (OOP)

TECHNICAL PROJECTS

Nutri Bowl – Full-Stack Meal Subscription Platform

github.com/albinbiju03

Python, Django, SQLite, JavaScript, HTML5, CSS3

- Designed and implemented a full-stack meal subscription web application supporting tiered subscription plans (1, 3, and 6 months) with custom onboarding.
- Integrated secure user authentication, role-based dashboards, and automated order confirmation notifications utilizing Django's email backend.
- Structured normalized database models using Django ORM to efficiently manage customer profiles, active meal subscriptions, and delivery schedules.

SmileCare Dental – Clinic Management & Booking Platform

github.com/albinbiju03

Python, Django, SQLite, JavaScript, HTML5, CSS3

- Developed a responsive healthcare platform featuring clinic service listings, patient reviews, and an interactive appointment scheduling system.
- Architected a relational database schema comprising 7 distinct models (Patient, Doctor, Appointment, Review, etc.) utilizing Django ORM.
- Implemented session management, role-based access control, and automated email triggers to confirm and track patient bookings.

INTERNSHIP EXPERIENCE

Oasis Infobyte | Python Programming Intern

Apr 2026 – May 2026

Remote

- Built and delivered 5 hands-on programming tasks applying core computer science concepts, data structures, and algorithmic scripting.
- Debugged, tested, and optimized Python scripts to resolve runtime logic errors and enhance overall execution performance.
- Maintained structured code repositories and collaborative version control workflows using Git and GitHub.

EDUCATION

St. Paul's College, Bangalore University | Bengaluru, India

2023 – Jun 2026

Bachelor of Computer Applications (BCA) • **CGPA: 7.14**

CERTIFICATIONS

- Cyber Security** – IBM
- Artificial Intelligence** – College Add-on Program

LANGUAGES

English, Kannada, Hindi, Malayalam, Tamil
