

ALBIN BIJU

Bangalore, India | +91 6383764278 | albinbiju0330@gmail.com | linkedin.com/in/albinbiju03 | github.com/albinbiju03

PROFESSIONAL SUMMARY

BCA graduate (St Paul's College, Bangalore University) with hands-on experience building full-stack web applications using Python and Django. Completed a remote programming internship covering algorithms, data structures, and scripting, and built two full-stack projects covering database design, authentication, and third-party integrations. Comfortable in collaborative, team-based project settings and quick to pick up new tools and frameworks. Seeking an entry-level Full-Stack or Backend Developer role.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML5, CSS3

Frameworks: Django (ORM, Authentication, Template Engine, Email Backend)

Databases: SQLite

Tools & Platforms: Git, GitHub, VS Code, Django Admin, Jupyter Notebook

Additional: Familiar with AI-assisted coding tools (GitHub Copilot, ChatGPT) for accelerated development, and hands on Adobe for poster Design

PROJECTS

SmileCare Dental — Web-Based Clinic Management System

Django, Python, SQLite, HTML5, CSS3, JavaScript

- Designed a relational database schema with 7 models (Patient, Doctor, Review, and others) using Django ORM
- Built patient registration and login with Django Authentication, including role-based access and session management
- Integrated Django's email backend to send automated appointment confirmation emails
- GitHub: github.com/albinbiju03

Nutri Bowl — Full-Stack Meal Subscription Platform

Python, Django, SQLite, HTML5, CSS3, JavaScript

- Built a full-stack subscription platform supporting 1, 3, and 6-month meal plans
- And a home delivery option with the costumer login options
- Integrated Django's email backend to send automated message for order confirmation as emails
- GitHub: github.com/albinbiju03

INTERNSHIP EXPERIENCE

Python Programming Intern — Oasis Infobyte

Apr – May 2026

- Completed 5 hands-on programming tasks covering algorithms, data structures, and scripting under mentorship
- Debugged and optimized code to fix logic errors and improve execution performance

EDUCATION

Bachelor of Computer Applications (BCA) — St Paul's College, Bangalore University

2023 – Jun 2026

CGPA: 7.14

CERTIFICATIONS

- Cyber Security — IBM
- Artificial Intelligence — College Add-on Program

EXTRACURRICULAR ACTIVITIES

- Active member of college sports; participated in a college-level fashion walk

LANGUAGES

English, Kannada, Hindi, Malayalam, Tamil
